 Comment:

a. According to previous reports, the field is not occupied by an air unit. The information on construction work at the field, the storing of food supply and the arrival of an advance detail, allegedly from PHILIBERG, indicates that the field is apparently intended to be occupied by an air unit.

25X1  observed the presence of a ground radio station of the Ill Mtr Corps.

b. As the papers mentioned in para 3 contain no valuable information they are not forwarded. The reported names of the Soviet officers are unknown
